

ONLINE LEADERS MEETING

Leaders Meeting (Online)

As we've shifted our Leaders Meetings online, the format has been changed to emphasize on finding out how leaders are doing, and hearing about what is going on with them and their CGs. Here are several things to keep in mind while running your Leaders Meeting online.

KEEP IT SHORT

Helps to hold everyone's attention - video calls for groups are less engaging than a face-to-face interaction.

Save longer conversations for smaller groups or one-to-one calls.

*Pro Tip: **Always** start on time to end on time.*

KEEP IT REGULAR

Our Leaders Meetings are held fortnightly.

Regular meetings mean we don't have to try and cram everything in - helps to keep them short.

Regular meetings let us establish a rhythm.

Regular meetings help us build connection and community.

KEEP IT CONSISTENT

Same time, same day, same platform, same format.

People come more prepared when they know what to expect.

Less time is spent getting everyone on board.

Pro Tip: People respect what you inspect. Consistently check in on the same things and they'll start coming prepared.

KEEP IT DIRECTED

If we ask questions, always direct someone to answer them.

If we're gathering updates, always direct someone to go first.

If we're praying, always direct who's praying for what, and when.

Pro Tip: As much as possible, use a mic so our speech is always heard clearly. Even the one on your Apple earphones will do.

KEEP YOU PREPARED

If we want short, regular, consistent, and directed meetings, preparation is KEY.

We can do ALOT in very little time if we're prepared.

Know exactly what we're saying, when we're saying it, in as little words as possible.

Eg. Have examples and testimonies ready, vs thinking of examples and testimonies on the spot.

MEETING FORMAT

10min - Catch-up and Testimonies

5min - Prayer for Personal Needs (*Pastoring them*)

20min - Lesson and Discussion

15min - Admin (*Report of CGs, issues to raise*)

10min - Intercession (*Directed, take turns to pray*)

5min - Rhema
